

## **Kemo Limited Expands into USA**

(April 2022, for immediate release)

Kemo Limited a member of the Engineering & Scientific Instrumentation Group (ESIG) is pleased to announce the opening of a new office in the USA. Kemo USA LLC has been formed as a partnership with Skorchtek LLC an established US based company working in the test, measurement and industrial sectors providing test equipment sales, training and accelerometer calibration services with ISO17025:2017 accreditation.

The new company has been formed to focus growth into the US market and will be selling and supporting the full range of Kemo signal conditioning and filter products which are manufactured in the UK. In addition the US business will also be a manufacturing centre for the Kemo range of low noise and coaxial cable assemblies to support the US market.

Andy Cogbill, President of Skorchtek LLC said of the new business... 'It is an exciting step for us to join with Kemo Limited and to be able to establish a manufacturing capability here in the USA. The ability to deliver accelerometer cable assemblies and accessories quickly is key to provide the sort of support our customers need. Our plan is to offer stock of standard cable lengths for quick delivery, with the added facility to supply cables to suit customer specific requirements.'

Kemo USA LLC will also be selling the soon to be launched range of piezoelectric and IEPE accelerometers that have been developed by the ESIG group.

Neill Ovenden, Managing Director of Kemo Limited added.... 'Establishing a direct sales and manufacturing base in the USA is something I have been planning for some time and now it has become a possibility with the strength of the Kemo brand behind it. The new Kemo USA company has the perfect mix of experience and will benefit from the full technical and commercial support of the UK and US teams.'

The new business has been co-located within the Skorchtek facility in Holland, Michigan, USA which was also the location for the company launch event and formal inauguration.
