The DR1000-I is a unique DIN rail mount 4-20mA current output, operates as current source or sink developed and built by Kemo Ltd.

Offering a standard voltage output on O/P1 this unit changes O/P 2 to be a 4-20mA output.

Connection is via screw terminals and mating cables can be supplied. DC input power in the range of 9-30VDC is required making it ideal for many site applications.
